March 10, 2015

To: Leavenworth County Property Owners Along the Following Road Segment:
- 207th Street from Highway K-92 to High Prairie Road

Re: **Leavenworth County Participatory Road Program**

Dear Leavenworth County Landowner:

A public workshop was held at 10:00am on Monday March 9, 2015 in the basement conference room of the Leavenworth County Courthouse to discuss the proposed Participatory Road Program project for the segment of 207th Street between Highway K-92 and High Prairie Road. Official easement documents and corresponding information were distributed to those affected landowners present at the workshop.

For those landowners who were unable to attend the March 9, 2015 workshop, specific, official easement documents and corresponding information are enclosed with this memo for your immediate review. Please do not hesitate to contact me if you have any questions, or if you would like to schedule a one-on-one meeting with me to discuss how this project affects your private property. A digital copy of the presentation plans for this project, as well as a "*signed easement progress map*", can be viewed at:

http://www.leavenworthcounty.org/pw/documents/Participatory%20Road%20Program%20-%20PRP/207th%20Street%20from%20Highway%20K-92%20to%20High%20Prairie%20Road/

For your convenience, your neighbors Robert Hadley Hall and Carol G. Hall have graciously offered to make themselves available to notarize easement documents that individual landowners have agreed to sign.

Please note that none of the official signed-notarized easement documents received by this office will be recorded with the Leavenworth County Register of Deeds unless / until reception from 100% of the affected landowners is accomplished. In the event that the Public Works Department does not receive 100% of the required easement documents by the deadline defined below, all signed-notarized easement documents received by this office will be returned, *unrecorded*, to the respective landowners, and the project will be placed on hold indefinitely.

In order for this project to move forward, official signed-notarized easement documents must be returned to this office prior to 5:00pm on Monday April 6, 2015, from 100% of the affected landowners. If you have any questions or would like to schedule a one-on-one meeting prior to Monday April 6, 2015, please feel free to contact me from Monday – Friday between 8:00am – 5:00pm at 913-684-0470.

Sincerely,

Mickey Schwartzkopf 03-10-15

Mickey Schwartzkopf, P.E.
Deputy Director of Public Works
